

Mary T. Sherman Bio

Devoted Christian, Teacher and Author, Mary T. Sherman, is a graduate of Andersonville Theological Seminary where she earned her degree in Theology. Mary has tirelessly served in the Christian community for over 42 years, Her ministry has crossed International lines having spearheaded a Hispanic church, ministered as an evangelist-missionary in Mexico City, opened a church mission for the homeless, catering to both families and singles from all ethnic backgrounds throughout the Los Angeles and Baltimore areas.

Mary T. Sherman's church mission, founded some years back, spawned the spores of her present ministry. Her vision encompasses teaching, mentoring, and training of pastors, teachers, lay-leaders, and individuals in the area of restoring broken souls in their respective congregations. Mary invested fifteen years on her own recovery, of which the first five years were spent under Dr. James G. Friesen, Ph.D., a Christian psychologist, who authored Uncovering the Mystery of MPD, and who specializes in the area of helping people work through painful memories and dissociative disorders. Not being able to continue her recovery under Dr. Friesen, Mary spent the following ten years in study and obtaining healing through the Scriptures as the Holy Spirit imparted revelatory insights of her condition in the light of the **Finished Work** of Christ. Soon thereafter, the Lord led her to start a ministry in the area of the healing and restoration of the soul in the South Bay area of California. As she taught, there was a great need for people to have written materials to take home and review work exercises taught in the class. It was through this need that Mary began to write. Over a period of nine years, she narrowed her writings down to a very succinct workbook, Right the Wrong Within, which was published 2007.

Mary T. Sherman's book provides valuable biblical teaching as well as providing, not only exercises after each chapter, but worksheets, illustrations, tables, and other helpful tools that assist in the process of healing by enabling the individual in drilling down to the root causes of the pain and troubling issues of their lives. It also teaches how central the Scriptures and prayer are in obtaining healing. Mary's teaching is a NOW ministry and fulfills an ever-increasing need in the churches and the world at large. It reaches into the very fabric of everyone's life and in the life of this nation.

In addition to healing, Right The Wrong Within will bring in-depth knowledge of the Scriptures as well as true insight as to how sin actually destroys the soul and effects the body. "Destructive behaviors are the direct result of damage within the soul," expresses Mary T. Sherman. "The good news is that all emotional damage can be healed if one is committed to working the process... to the end."
